Government-Grade Cyber Intelligence & National Security Solutions

Our Solutions

BouraCyber Solutions was founded by cyber intelligence experts with more than 30 years of domain experience. Dedicated to meeting our customers' needs, we focus on field-proven, best-of-breed, innovative products, top-notch execution, and exceptional customer service.

Counter-Drone Defense

Fusion & OSINT Intelligence

Geo Location

We design with purpose and deploy with precision. Every Boura Cyber solution is built to meet real operational needs balancing cutting-edge innovation with trusted reliability. We work hand-in-hand with decision-makers to ensure legal, secure, and effective integration into existing workflows.

Industries We Serve:

NI & NS (HLS)   **LAW ENFORCEMENT**   **CRITICAL INFRASTRUCTURES**   **SECURITY FACILITIES**

Counter-Drone Defense

Dominate the Skies:
Nexus360 Command & Control (c2)

BouraCyber's Nexus360° is a scalable, end-to-end bundle that adapts to any drone threat. Non-proprietary yet fully customizable, it puts intelligence-driven alerts in your hands and stays future-ready with regular updates. Ruggedized for outdoor, indoor, mobile, or vehicle use - any terrain, any weather - Nexus360° delivers complete protection and seamless operational continuity.

UAV DETECTION
The detection layer combines multiple sensors such as radar, RF, and electro-optics to identify and track hostile drones, ensuring reliable detection in complex and contested environments.

JAMMING
The RF disrupts drone communication and navigation links, including GPS, forcing drones to lose control, land, or return to their origin without physical destruction

KINETIC SOLUTIONS
precise, operator-controlled hard-kill capability that physically intercepts and neutralizes hostile UAVs, fully integrated into the Nexus 360 detection-to-engagement workflow.

DRONE INTERCEPTION
The interception capability enables precise and controlled neutralization of hostile drones, for the protection of critical infrastructure, sensitive sites, and high-value assets.

Fusion & OSINT Intelligence

B-Scope - A Multi-Dimensional Data Enrichment & Analysis Engine

BouraCyber's Nexus360° is a scalable, end-to-end bundle that adapts to any drone threat. Non-proprietary yet fully customizable, it puts intelligence-driven alerts in your hands and stays future-ready with regular updates. Ruggedized for outdoor, indoor, mobile, or vehicle use - any terrain, any weather - Nexus360° delivers complete protection and seamless operational continuity.

Product highlights

End-to-end Data Enrichment solution - collection, analysis & reporting

Cost effective – rapid results without relying on highly skilled analysts

Vast amount of information across the surface and deep web Advanced Data Intelligence Capabilities

Stealth & Secured - complete and comprehensive network source anonymization & encryption

Phone Geo Location

Complete Situational Awareness - The power on your side

We deliver advanced intelligence solutions for law enforcement agencies, national security organizations, defense forces, and critical infrastructure operators. Built for complex operational environments, the systems enable precise detection, tracking, analysis, and command across multiple domains.

IMSI CATCHER - ACTIVE

A flexible tactical system for on-ground (vehicle, motorcycle, manpack) and airborne vehicles, as well as fixed installations. It is a high-power tactical tool, crucial for monitoring cellular activity across vast and diverse environments.

PASSIVE PHONE LOCATOR

A passive phone locator, a discreet, compact device that leverages AI and Machine learning technology to silently and effectively track and pinpoint cell phones within a 2-kilometer radius.

Vehicle System

Portable System

PASSIVE INTERCEPTION

Leveraging real-time network intelligence and silent detection capabilities, the system provides precise geolocation in a large parameter without alerting the target or disrupting surrounding communications.

BouraCyber Solutions, founded by cyber intelligence experts with 30+ years of domain experience, offers comprehensive security services. We prioritize field-proven, best-of-breed innovative products, top-notch execution, and customer service.
